**one yellow + two blue**

or

**three blue**

### Assessment of the applicants for the database

The national associations of professionals in the member countries are responsible for finding the experts and to assess if the applicants satisfy the requirements.

### **How to establish the database**

- The webmaster of EFP constructs a database.
- The scheme is prepared with different categories of topics, but the list of topics is open to any special field of psychomotor therapy.
- The scheme will be sent out by the national delegate to the national organisations in each member country.  
They contact the experts, the expert fill out the scheme and the national organisation is responsible to assess if the applicants satisfy the requirements.
- The expert-form and the expert-overview has to be sent to the EFP-secretary, Veronika Pinter-Theiss, [veronika.pinter-theiss@psychomotorik.at](mailto:veronika.pinter-theiss@psychomotorik.at), who will give the information to the EFP-webmaster.  
In the beginning the updates will take place twice a year: June and December.
